

FACT: MANY NON-NARCOTIC
PAINKILLERS
ARE ACTUALLY AS EFFECTIVE
WITHOUT THE HIGH RISK OF ADDICTION.

OPIOID (OR NARCOTIC) PAINKILLERS ARE HIGHLY ADDICTIVE. CONSIDER NON-NARCOTIC PAINKILLERS AND EXPLORE PAIN MANAGEMENT ALTERNATIVES WITH YOUR DOCTOR.

If you have been prescribed an opioid (or narcotic) painkiller in the past, please be aware that you have effective non-opioid options.

Better pain management, less risk of addiction. For more information about preventing painkiller misuse, or what to do if you need help, visit: DoseOfRealityFL.com
